Company Overview

Steellink Global is an Australian-owned steel procurement and supply chain management company that specializes in the sourcing, manufacturing, importation, and delivery of high-quality steel products for clients across Australia from international and domestic steel manufacturers. Steellink Global bridges the gap between international/domestic steel manufacturers and local industry by offering streamlined, end-to-end procurement solutions with a strong network of ISO 9001 and ACRS-certified manufacturers, that only produce steel products to the relevant Australian standards. This allows competitively priced, top-tier steel without compromising on quality or compliance.

Key Strengths & Capabilities

End-to-End Steel Procurement: From international or domestic manufacturing to delivery on site, Steellink Global manages the full cycle of steel sourcing with a hands-on, transparent approach.

Quality Assured Products: Steellink Global only partners with **ISO 9001** and **ACRS-certified** manufacturers, that produce products that comply with the stipulated Australian Standards (**AS/NZS**) for safety and performance.

Products We Procure:

Structural steel: UB, UC, PFC, ANGLE.

Hollow sections: RHS, SHS, CHS.

Reinforcing steel: Rebar, mesh, ligatures.

Rail: All Rail Profiles

Custom steel products: upon request.

Logistics:

Steellink Global handles the entire logistics process from sourcing and manufacturing to international shipping, customs clearance, and final delivery ensuring a smooth, reliable supply chain.

Flexible Financial Terms:

Steellink Global offers flexible payment terms:

120 days: from the date of the bill of lading.

60 days: from the date of delivery.

Designed to give clients greater financial flexibility and control.

Differentiators:

Certified Manufacturing Partners: Collaboration with manufacturers who hold ISO 9001 and ACRS certifications, ensuring adherence to strict quality and safety standards.

Risk Management and Insurance: Implementation of proactive risk management strategies and insurance protections to safeguard every shipment from sourcing to delivery.

Global Reach: Network spanning multiple countries, providing clients with access to a diverse range of steel products and markets.

Client-Centric Approach: Commitment to understanding and meeting client needs through customized solutions and responsive service.

Past Performance:

As an established entity, T.E. Hills & M.S. Viridi, operating under the name Austek Brackets, has successfully overseen the manufacturing and importation of structural steel sections and steel brackets for a wide range of structural applications. With a strong focus on quality and compliance, all products are supplied in strict accordance with the relevant Australian Standards. Through a network of trusted distribution partners across New South Wales, South Australia, and Victoria, Austek Brackets maintains a distribution footprint spanning 23 active branches. This extensive experience in steel sourcing, quality control, and multi-state distribution forms the foundation of Steellink Global. The same rigorous standards, procurement expertise, and logistical efficiency developed under Austek Brackets are now fully integrated into Steellink Global, allowing a broader range of structural steel products to clients across Australia with confidence and scale.
